port  
deltona college

# Paars Partnerschap

# Dutch perspective on QA of assessment and certification (1)

- Dutch Qualification framework based on learning outcomes
- Units: optional parts and lifelong learning
- VET provider: training (including WBL together with companies) and assessing and certifying students

# Dutch perspective on QA of assessment and certification (2)

- Examination board: independent operating board for assessing and certifying student and QA these processes
- VET provider has to meet set standards for Q and QA of the provision, assessment and certification (including involvement of stakeholders)
- Selfassessing the Q and QA, internal auditing and external auditing by Dutch inspectorate

# Set standards for assessing and certifying (1)

VET providers have to meet set standards:

- Used assessment instruments (purchased, developed)
- Processes of constructing and fixing instruments
- Processes of performing and assessing students
- Processes of deciding to qualify and qualify students
- QA of processes
- Q of staff
- Involvement of stakeholders

## Set standards for assessing and certifying (2)

- Defense staff: employed for life and temporary contracts
- Defense qualification framework, provision and defense certificates
- Need for facilitating civil career after defense career for groups of staff
- Cooperation with VET providers: Paars Partnerschap

# Double qualifications for defensestaff (1)

- Comparing defense qualifications with national qualification framework
- Designing units based on NLQF
- Designing list of necessary professional products and need of criteria based interview in cooperation with examination board of VET provider (in accordance to set standards on Q and QA of assessing and certifying)

## **Double qualifications for defensestaff (2)**

- Independent assessors for assessing professional products students and interview
- Examination board: assesses Q of professional products and decides upon certifying student or dispensation for unit from NLQF
- Student gets educated and trained for units that he still misses for full qualification from NLQF

## Closing remarks

- Differences between 4 parts of defenseorganisation
- Defenseorganisation uses experiences to improve educational programmes and defense QF
- Defenseorganisation involved in sectoral commissions of SBB
- Dutch inspectorate involved
- Expertise of NRP NLQF used for comparing QF, designing units and list of professional products
