## General Outline of Phase 2

### General Objectives of Phase 2
- To define potential issues and the scope of the alignment initiative
- To identify gaps between existing QA approaches and the EQAVET Framework
- To identify the changes needed in order to align the existing QA approach with the EQAVET Framework

### Tasks

1. **Assess the current QA approach, e.g.**
   - Document the way in which the alignment initiative needs to support current QA approaches
   - Identify matches and/or mismatches between your current QA and the EQAVET Framework
   
   See Task 1 below

2. **Set up implementation team, e.g.**

### Specific Outline of Phase 2

#### [At National/Regional Level]

- **National / Regional Objectives of Phase 2**
  - Indicate the alignment objectives that are specific to your context at national/regional level.
  - Identify potential policy issues in implementing the alignment of your current national/regional QA approach with the EQAVET Framework.

#### [At VET Provider Level]

- **VET Providers Objectives of Phase 2**
  - Indicate the objectives for the alignment that are specific to your provision context.
  - Identify potential difficulties in aligning your current QA approach at provision level with the EQAVET Framework.

### Tasks

1. **Tasks at National and/or Regional Level**
   1. Assess the current QA approach at national and/or regional level; identify strengths and opportunities as well as weaknesses and threats.
      - Use a SWOT matrix
      - See illustration of a SWOT matrix in Task 1 – Module 2.
   2. Set up implementation team
      - Bring together the core team of implementers (people

2. **Tasks at VET Provider Level**
   1. Assess your current QA approach; identify strengths and opportunities as well as weaknesses and threats at provision level.
      - Use a SWOT matrix
      - See illustration of a SWOT matrix in Task 1 – Module 2.
   2. Set up implementation team
      - Bring together a team of implementers (members
3. **Identify issues** which would need to be resolved to enable you to align your current QA approach with the **EQAVET Framework**.

- Bring together an implementation team
- Consider the need to include key stakeholders (e.g. social partners) in the team

3. **Begin the alignment** of your existing QA approach (at national/ regional level) with the EQAVET Framework. You may do it in a number of ways and use different types of tools. In order to select the best possible strategy and tools, organise an open and informative discussion with key stakeholders.

- Involve relevant stakeholders (e.g. social partners, VET provider associations) in the team.

3. **Begin the alignment** of your current QA approach at provision level with the EQAVET Framework. Bring together your a) internal stakeholders, including learners, b) local stakeholders, including employers, and together select a strategy and a set of tools to enable you to align.

- Include key local stakeholders (e.g. employers, local authorities) in the team.
